[Respond to this email](#) and we will enter you in our drawing for a \$50 gift card to your choice of restaurants\*.

Congrats to May's Winner:

**Kimberly DiMauro**

Capitol Light Maintenance

\*restaurants listed at the bottom.

### NORTHSTAR PROMOTES SAFETY— June is National Safety Awareness Month

The entire month of June is dedicated to safety awareness by the [National Safety Council](#). Reducing risks and spotting hazards helps stop incidents before they happen.

If you are interested in receiving free materials to pass along to your employees, family and friends about National Safety Month—please check out this [website](#) and fill out the form.

Here's the weekly breakdown:

**Week 1:** Prevent prescription drug abuse

**Week 2:** Stop slips, trips and falls

**Week 3:** Be aware of your surroundings

**Week 4:** Put an end to distracted driving

**Bonus week:** Summer safety

June is also Home Safety Month, with the first week of June containing National CPR Awareness Week and Sun Safety Week!

The Red Cross sponsors CPR Awareness week. One of the best ways to save a life is to learn this skill. Learn more by checking out their page [here](#).

With summer officially here on June 21st, Sun Safety Week is important! Feeling the sun is so wonderful after a harsh winter, but watch out for sunburns, dehydration, UV and infrared radiation exposure, all of which could cause skin and other cancers! Read more about sun safety [here!](#)

You can still contact *NORTHSTAR* for the STOP TEXTING magnet if you would like a Free one!

### ICSC RECON WAS AMAZING!

Bill and Katrina enjoyed going to Las Vegas for a little relaxation and some great networking and learning experiences.

Three different rooms full of vendors and booths that were designed nicer than some homes, made for an very interesting trip!

Being an ICSC member has opened many new opportunities for us and we look forward to continued programs that help us explore the new options available in the retail markets. Service is our goal, and we believe we offer a valuable service to our customers.

Please give us feedback [here](#) or for any sign installs please leave feedback [here](#). We appreciate it!

Happy Birthday to Mark, David and Dawn who all celebrate in June!

Happy Father's Day—Sunday, June 15th, 2014

The first day of summer is Saturday, June 21st, 2014.

### Best Line Sign Installation

Just recently *NORTHSTAR* was asked to install a fully lit monument sign for Best Line Equipment.

After a full site survey was completed by our sign specialist a proposal was sent out.

The office needed to pull zoning and electrical permits before the work could start. Once permits were approved and obtained, our technicians began digging and trenching in order to get a post and electrical wiring run into the sign. Then a pole with conduit and base concrete was poured. Using a lift and crane to pick up and lower the sign onto the pole and hardened concreted based, our techs then hooked up all the connections to ensure every bulbs would light.

The finishing touches of leveling and balance were completed. Lastly the inspection was required.

The sign is beautiful! Even a gloomy day with light sprinkles can't keep our dedicated team down!

We can help with new signs, parking lot retrofits and many other upgrades. Call us today to see what amazing installations we can do for you! 610-539-2200
